THE Y.M.C.A. IS A GODSEND TO THE SOLDIERS IN FRANCE, AND FRANKLY THE SCOPE AND NATURE OF ITS WORK ARE A REVELATION TO THE AMERICAN PEOPLE.

While not neglecting the spiritual mission, it is prosecuting secular work on a huge scale. While Protestant, though interdenominational, it cares for the needs of those of all creeds. Among its listed workers are to be found people of all faiths. All that is required is that a man be reverent, and believe in a sky pilot. The Y.M.C.A. has broadened wonderful to conform to the needs peculiar to an unprecedented condition of mankind, and with this broadening has increased its potency for good proportionately.

One almost paradoxical feature of the war is that while it has solidified the civilized world against evil in the abstract, it has largely eliminated nonessentials. Things which were once taught from some pulpits would be considered of no consequence in the greater danger of a world being plunged back into paganism by the event of a German triumph. So while the world has become more tolerant in some things, it has become more intolerant of others, and the Y.M.C.A. has adjusted itself to this viewpoint.

At the general executive headquarters in Paris, presided over by E. C. Carter, chief secretary, are 125 officers and hundreds of workers. These headquarters are run with the same precision of a combined mercantile and military establishment.

There is no waste of time, no slackening. Everything is done by the shortest route. This is the nerve center of the Y.M.C.A. in France, with its tremendous ramifications. There are no cushy jobs. These are war-torn times, and every man here is in strictly civilian positions.

Two thousand Americans are enlisted in the organization, and as many more civilians ranging from stenographers to carpenters are employed. It is an army back of the army, and like the army growing steadily in numbers and efficiency.

There are plans to double the force in France, and so on and so forth. It is estimated that the Y.M.C.A. in France now has more than 100,000 workers.

These men are not only trained in the use of tools, but in the use of the mind. They are trained in the use of the mind, and in the use of the body.

CHICAGO, May 22.—How the sabotage was sent to branch organizations in the West for distribution.

"We expect to stop the entire copper output of the country soon," Jacobs wrote from Denver, July 23, 1917. "Twelve hundred miners are on strike in Butte under the I.W.W. banner."

Numerous letters from western cities to the government were read by counsel for the government.

"Say, there's going to be hell in the West," said one of the letters. "The I.W.W. is going to stop the entire copper output of the country soon."

Goulden told of leaving Seattle in August, 1917, because the sight of soldiers was nauseating to him.

DRAFT EVASIONS.

Scores of letters taken from the files of the 112 I.W.W. offices in the West, read today into the record to substantiate the charges of the government against the organization.

The letters indicated that, although the defendants of draft age talked of going to the front, they planned to escape being drafted, or to go to the front in disguise.

It appears, however, that the names and real identities of the defendants were being kept secret.

Counted for the defendants vigorously objected to the admission of many of these letters, but Judge Landis permitted them to go in, as evidence for the government.

ADMITTS HIDING.

Corder admitted he changed his name and was a disguise to avoid the draft, after he had registered in several letters written to his sister.

NINETY THOUSAND SENT TO FRANCE IN TEN DAYS.

House Is Told More Soldiers Go Weekly than Estimated for Year.

[BY A. P. NIGHT WIRE]

WASHINGTON, May 22.—In a statement inserted in the House Record today, Representative Caldwell (Cal., R.), declared that during the first ten days of May 1918, 90,000 American soldiers were sent abroad, and said that after the expiration of one year from the arrival of the first shipment of troops from this country the United States would have 1,000,000 men in France equipped with the necessary arms and supplies. When a request was made for a small expeditionary force from this country, critics of the administration, Mr. Caldwell said, declared it would be impossible to ship from 10,000 to 100,000 men in the first year of the war.

FIRE WRECKS LUMBER
MILL IN WAR WORK.
(BY A. P. NIGHT WIRE.)
HOQUIAM (Wash.) May 22.—Fire, believed to be of incendiary origin, tonight destroyed the entire plant of the Northwestern Lumber Company here, with a loss estimated at \$150,000. Ten million feet of airplane spruce lumber stored in the mill, which was built in 1912, had been cut into 200,000 and 350,000 feet of airplane lumber each week, in addition to its output of other lumber. The fire, officials of the company say, quickly followed an explosion inside the mill, which leads to the theory that it was the work of an incendiary.

It was stated, but a small number who had been heretofore detained at local barracks, owing to the local newspapers, Count Plunkett was the only prominent person in the party.

FOR INSTANCE:
Millwaukee Western Food Company operates 25 Pierce-Arrow trucks and has just bought seven more. The first truck delivered in June, 1914, has run 65,000 miles since. Again and again in consequence, the trucks have proved themselves equal to their tasks. In a recent bad storm which blocked streets badly for days, one of the trucks covered 85 miles every day, performing its regular work with little delay. They lose less time than any other truck on the market.

John F. Casey Company of Pittsburgh, operates 15 Pierce-Arrow trucks. They bought the first after trying out an initial truck in an exhaustive test covering two years. The capacity of the fleet was thoroughly tested in unloading and constructing the Cabbage Hill Reservoir. Materials had to be carried up a 75 grade over wretched roads, a total haul of 5 1/2 miles. The trucks worked over 6 months, hauled 81,000 tons of sand and gravel and 67,000 barrels of cement in addition to 4,000 tons of coal, machinery and miscellaneous freight. They worked an 11-hour day and averaged 16 trips a day. They did the work faster and much cheaper than any other possible equipment, and finished the job far ahead of contract time.

THE FIXTURES are FOR SALE! QUITTING BUSINESS Absolutely!

Gentlemen: Join the scores of buyers who are taking advantage of the biggest bargain event in men's suits ever offered. You all know that the governments of the warring nations have bought up all the available material for uniforms for the boys at the front. The mills have been taken over. Woolen material is as scarce as hen's teeth. We are simply unable to purchase any more merchandise at prices consistent with our popular prices in the past.

Therefore, for the duration of the war or until it is possible to secure more goods we will retire from the tailoring business in which we have built up a solid and reliable reputation. We will at once sacrifice the finest lot of goods ever collected in the city of Los Angeles.

Gentlemen, read THIS! A delayed shipment of fine cloth goods ordered some time ago has just arrived. It was held up by the railroad congestion. These elegant materials are all to go in this retiring from business sale. And among them we find a number of ends, sufficient to make extra pants positively free. These materials in all your favorite colors and patterns. Cheviots, worsteds, tweeds and serges in stripes, checks, herringbone and plain effects. Just exactly what you need will be found here if you come in early. So come! Buy two suits. You'll save more money.

ROOSEVELT IS BACK
IN REPUBLICAN CLUB.
RESIGNED IN 1912—ACCEPTS
RE-ELECTION WITH "UT-
MOST PLEASURE."
(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
NEW YORK, May 22.—An announcement was made today here that Theodore Roosevelt had accepted re-election as a member of the Republican Club. Mr. Roosevelt resigned in July, 1912, following his defeat for the Republican nomination for President and before the convention of the Progressive party, which named him as its candidate. Mr. Roosevelt's resumption of membership was taken to mean a complete healing of the breach in the Republican party caused by the split in 1912. Of the members who left the club with Mr. Roosevelt, practically all have returned. The committee of re-electing Mr. Roosevelt to membership was suggested informally at a meeting of the Executive Committee of the club two weeks ago. The proposal then was made to Mr. Roosevelt, who said he would be pleased to regain membership in the club in the affairs of which he had taken an active part for twenty-five years.

RED CROSS WORKS IN
FIRST LINE TRENCHES.
(BY ATLANTIC CABLE AND A. P.)
PARIS, May 22.—The latest fact of the American Red Cross workers in France is going into the first line trenches, serving coffee and chocolate to the American soldiers about to leave for patrol in No Man's Land and greeting the boys upon their return with fresh supplies of coffee and chocolate, with cigarettes and dry socks. A cold rainy night recently was marked by activity of the Red Cross men. The soldiers had messes at 5:30 p.m., and would have had nothing to eat until 6 o'clock the next morning, had it not been for the Red Cross workers. The next day supplies were placed in American boys on night patrol in No Man's Land will have hot drinks until a canteen is established in the immediate vicinity.

WILSON TO DISCUSS
WAR REVENUE PLANS.
(BY A. P. NIGHT WIRE.)
WASHINGTON, May 22.—Whether revenue legislation shall be undertaken at this session of Congress depends on President Wilson's decision after a conference tomorrow with Congressional leaders who are strongly in favor of postponing the legislation until next December. Today the President went over the arguments presented by Secretary McAdoo for enactment of a new tax law before adjournment. All the advice Secretary McAdoo got today from his advisers having charge of administering the revenue law and of planning to meet future financial needs, the government was to the effect that the measure must be adopted by next fall.

The commencement exercises are set for 7:30 p.m. on the afternoon of Thursday, June 6.

GERMAN PEOPLE

SEE THE LIGHT.

Criticism of Hindenburg are increasing.

Crown Prince Unpopular, is Swiss Report.

"Victory" in West Front Now Termed Defeat.

(Overnight.)

AT ATLANTIC CABLE AND DIRECT WIRE-EX-CLAVE DEWATER.

ROME, May 22.—The Times' correspondent today interviewed a Swiss recently returned from Germany, where he spent six months. He says the democratic press recently criticized Von Hindenburg, Ludendorff and the Crown Prince for the recent German offensive on the French front, which it regards as tantamount to a defeat despite the territory taken. The Catholic party also is seriously annoyed with the military.

The autumn offensive against Italy is very strongly criticized among most classes of Germans, though the censorship prevents the press from discussing the evil effects of Germany's military policy, because the Caporetto attack (where the Germans first broke through the Italian lines) is regarded as a disgrace to the public spirit to a degree that Germany never dreamed possible, while it also destroyed the remnants of pacifism and pro-Germanism.

Germans also are blaming German headquarters for permitting the Turks and Bulgarians to participate in this offensive which failed entirely to put Italy out of action. Reports of decreased food rations are true and are causing some crumbling, but the Swiss says the Germans are still determined to win the war, though Russia has done nothing regarding food possibilities.

The Crown Prince is exceedingly unpopular owing to his military incapacity. The people suspect that his voice will be a weight in the war councils. The French nation is regarded with admiration and the British are the most hated of all, but the Americans are good second since it is becoming known that America is determined to fight to a finish and is ready to make any sacrifice for victory.

WITH THE FRENCH ARMIES IN FRANCE, May 22.—Prisoners of war held by the Allies are long time before starting the offensive this year, but that Gen. Ludendorff, the commander of the German army, is promising to force a peace by beating the Allies by Easter. The Crown Prince, with the military caste of Germany, they succeeded in ejecting Rudolf von Valentini from power after he had predicted a catastrophe for German arms.

Von Valentini was chief of the German press and had been placed last September by Von Berg. Valentini's removal was hailed by the Pan-German press as a triumph for their cause.

Hoarders of Sweetening Fast Being Smoked Out.

Certificate Plan is Success as Conservation Move.

Bakers' Jury to Try More Food Law Violations Today.

Sugar hoarders are being smoked out by the new certificate plan of sugar allotment which went into effect last Monday. Robert Wankowicz, recently appointed director of the sugar certificate plan for this district, said yesterday that there are a number of soda fountains and non-essential manufacturers in this city which have already exceeded their sugar allowance and now face a shutting off of their entire sugar supply.

Howard A. Bonnell, manager of the United States Sugar Corporation, Food Administration, for Southern California, Arizona, New Mexico and Texas, said yesterday that by continuing the present plan of sugar rationing there would be sufficient to last until August 30. Plans are now being prepared to take care of the situation after that date.

"There are 3,300,000 tons of sugar in Cuba, 1,500,000 tons in Java, and 250,000 tons in the Hawaiian Islands," Mr. Bonnell said. "This is a slight increase over the normal production of these countries."

"Southern California beet growers also have not planted as many acres to sugar beets as in former years and two Southern California sugar-beet refineries are now shut down."

According to Louis M. Cole, City Food Administrator, several grocers in this city have made complaints to his office that they have been unable to procure sugar from many of the local jobbers. It is believed that this is caused by a decision of many of the jobbers to eliminate sugar from their stock.

This afternoon at 3 o'clock the Los Angeles bakers' jury will try two cases of alleged wheat-flour violations. These cases were continued from last Monday.

LOST PROPERTY THROUGH HUSBAND'S HYPNOSIS?

ALLEGING that her husband, Robert D. Brown, possessed hypnotic powers under the influence of which she parted from property bought with her separate funds, without consideration, Mrs. Emma R. Brown filed suit against Mr. Brown yesterday asking that the court decree the property to be held in trust, and, in the absence of the husband, to have returned to her the money advanced on the property.

The property is in the Crenshaw Heights tract and was valued at \$1000. Mr. Brown, it is alleged, had the property deeded to both as joint tenants. Mrs. Brown declares that her husband refused to pay her any part of the purchase price. She says he repudiated the trust and denied her any right in the lots.

It is alleged that last Thursday Mr. Brown induced his wife by fraud, menace, undue influence and hypnosis to execute a pretended agreement concerning the sale of the property. No money passed and no love and affection on the part of the husband for the purpose of obtaining the property, it is asserted.

Mrs. Brown said she did not want to sign the agreement, but Mr. Brown threatened her. He said he would turn her over to the Federal authorities on the ground that she was pro-German and had made statements showing her preference for the Germans and the German cause, which Mr. Brown said he could prove by oaths.

Mrs. Brown said she believed that he would report her and signed the agreement. In his presence, she says, she "is numbed by fear" and has no control over herself; at such times she is subject to his control and desires. The complaint was prepared by Attorney John F. Poole.

WILL HOLD INQUEST.

Death of Mark Johnson Following Accident will be Investigated.

An inquest will be held this afternoon at 2 o'clock at the undertaking parlors of Severn, Letton, Frye Co., in Glendale, over the body of Mark Johnson of the firm of Johnson Bros., wholesale produce merchants, whose death occurred Tuesday afternoon at the County Hospital. Death followed an accident at El Monte, where the truck he was driving toward Los Angeles with a load of potatoes was struck by a Southern Pacific passenger train.

Mr. Johnson is said to have been an unusually careful driver. He was 35 years old and the son of Mrs. A. W. Johnson of No. 125 Cypress street, Glendale, with whom he made his home. His brother, Herbert Earl Johnson, was his partner in the produce firm. Funeral services will be held tomorrow morning at 10:30 o'clock at the Little Church of the Flowers, and will be in charge of the Eliza Lodge. Interment will be at Forest Lawn cemetery.

WIRELESS INTO MEXICO TAPPED.

Man Arrested for Smuggling News Across Border.

Posed in Many Roles, Assert Federal Officers.

Pretended Loyalty Deceived Many, it Appears.

The mysterious manner in which alleged agents of Germany have been smuggling information across the Mexican border in spite of the watchfulness of government officials was apparently solved by the arrest yesterday of Frank M. Kolb. He was indicted in the County Jail to await the arrival of a Presidential warrant for his internment at Fort Douglas, Utah.

Because of his education and aristocratic manner, Kolb is considered one of the most important captures among enemy aliens here since the beginning of the war. His arrest was the culmination of months of shadow-work by agents of the Department of Justice, leading to all sections of the United States. Kolb could have been taken into custody long ago, but the officers wished to apprehend his confederates as well.

When the Federal agents learned all that was necessary it was decided to arrest him. Yesterday on Spring street an officer approached and told him he was under arrest. He submitted quietly.

OTHER ARRESTS LIKELY. Other important arrests are expected to follow through information gathered from Kolb's activities in various States and along the border.

In carrying out his work as an alleged Russian informant and propagandist, Kolb, according to the government agents, cloaked himself with a super-Americanism. He adopted any task or vocation, it is said, by which to achieve his ends. He is alleged to have crossed the line many times and to have conveyed much valuable information to waiting Kaiser-men in Mexico.

At Ensenada, it is declared, Kolb even went so far as to open a bank ostensibly backed by German capital. The principal receipts of the institution, it is said, were tons of propaganda for distribution along the West Mexican Coast.

In the United States he assumed the garb of an insurance agent in Texas, in order to facilitate his task of smuggling Germans over the line into Mexico. It is said he turned up in the neighborhood of Fort Douglas recently disguised as a fruit peddler. He was arrested there while trying to communicate with interned Germans and agents here.

His superior talents came to his aid. He became hypercritical of everything American and his great love for America with such unusual vehemence that the arresting officers were thrown off the track and released him.

You need never shave with cold water again

If a hot bath is a gamble at your home, if you have forgotten the feel of a hot water shave, if you still depend upon old-fashioned ways of heating water, you will be amazed by the magic of a Ruud instantaneous water heater.

Steaming hot water for the dishes and cooking, piping hot tubfuls for the washing—all the hot water you want for every purpose—it's yours whenever you turn on a hot water faucet.

When you turn off the faucet, it automatically shuts off the gas. No gas is wasted.

It's easy for you to own a Ruud. The cost of the Ruud is moderate, and you may buy yours on our convenient payment plan. The pleasure of having plenty of hot water instantly for every purpose begins from the minute the Ruud goes into your home.

Let us give you the full Ruud proof. If you wish you may place your order through your plumber. But drop in as soon as you can and learn all the Ruud in actual operation. If you cannot call, send a representative to tell you all about it. Please.

"Me too."—King Charles of Austria. Hear that echo?

Mary, Mary, quite contrary, how does your garden grow?

The Chinese appear to be getting the "quack" on the Far East front.

Holland ought to know that the war is no worse fate than a shameless neutrality.

The horn of a silver often is the loudest. So it often is with man folk.

Francis J. Heney seems to be doing as much trouble running for error as he had in unpacking packers.

Does Ireland expect to win home rule by helping Germany? How can such a clever people be mistaken?

There are a number of soft-shell places in Los Angeles since the war, but the foot-rot seems to be out of place.

Anybody who is not doing anything for the country these days is under suspicion. There are no ways of helping.

Now for the third act of the drama on the western front. The set amid the smiling fields, orchard blossoms of Picardy.

A short skirt will do no good in the case of the traitorous Sinn Féin. It is hoped that the conspirator, the Kaiser in Ireland has been snipped in the bud.

President Wilson says there should be no limit set to the number of men dispatched across the sea, so say we all. There ought to be enough to run over the brutal Hun.

With the new law against anyone it ought to be possible to get anybody who, in the interest of money, sinks a ship or blows up a factory without going around the Hood's barn.

With the arrival of the summer complement of tramps to Los Angeles we shall soon locate the fashionable man who ever so often offered for sale the ring that his ear gave him.

The woman who imposed on county authorities by pretending that she was penniless when she had about \$2500 in cash and jewelry worth \$10,000 is not, as she is unaccounted for.

California has about 2,000 men who have attained their majority since June 1, 1917, and will be found in the front line of duty calls. The Golden State is lagging its duty manfully.

The non-sinkable boat theory has been abandoned by the navy. A big convoy of ships is the best non-sinkable solution for the present emergency.

China and Japan will protect common interests in the Far East. The Kaiser something else is about. The situation is such that united action is necessary.

Seventeen million names on the honor roll on the third Liberty Bond sale. That was the fourth of the total population of the United States at the time of rebellion.

It is reported that almost 100,000 young marriages were subscribed for a Liberty Bond. It is paying for it in instalments, being besieged by well-to-do young men. They are looking that kind of wife.

The secretary of the German imperial treasury, in his address to Reichstag, said: "We do not want the amount of the indemnity to be named. Why? Because we will win." Why? Because we will win.

Charles M. Schwab and his crew are taking hold of the air and airplane propositions in a new way. They seem to be really now that men are not members of the craft party from below them.

During the war operation, France, that will doubtless, be the people of this nation. The demand for news about the war is the Allies. The Washington authorities owe it to the people to support this war with this reasonable request.

MY SOLDIER. Heart of my heart, I called away Over the sea, to an unknown cause With never a thought of my peace To think of perils unknown Heart of my heart, let me dream!

Back to the land of the free, Back to the home of the brave, Back to a country free, Back to the joys of a free life, And let me dream, oh, heart of mine, That we never, never will meet again.

Trying Russellite Fails to Agree; Discharged.

"Faded Mystery," Says Court of the Book.

Will be Set for New Trial in July.

The document known as "The Faded Mystery" is about the most diabolical piece of propaganda that has ever been published. It is a masterpiece of disinformation and lies.

The words were leveled by Federal Judge Blodgett yesterday afternoon in a courtroom of sympathizers.

ANOTHER DISLOYAL ONE.

Woman Who Attacked Army and Navy is Quickly Convicted in Court at Sawtelle.

Disloyal remarks made by Mrs. Emma Hays, a nurse of No. 239 North Eleventh street, Sawtelle, brought down on her head a conviction on the charge of disturbing the peace and a torrent of scorn by Police Judge White yesterday.

Mrs. Hays was found guilty of declaring that any woman who let her boy join the army or navy was crazy and several like remarks calculated to comfort the enemy.

The woman was convicted in short time, even though a score of witnesses were examined. She will be sentenced today at 3 o'clock.
